
1. The first part of the document is a list of references. The references are listed in alphabetical order and include the following information: author name, year of publication, title of the work, and the journal or publisher. The references are as follows:

2. The second part of the document is a list of references. The references are listed in alphabetical order and include the following information: author name, year of publication, title of the work, and the journal or publisher. The references are as follows:

- [Author Name], [Year], [Title], [Journal/Publisher]
- [Author Name], [Year], [Title], [Journal/Publisher]
- [Author Name], [Year], [Title], [Journal/Publisher]
- [Author Name], [Year], [Title], [Journal/Publisher]
- [Author Name], [Year], [Title], [Journal/Publisher]

Rebecca Ozelie, DHS, OTR/L, BCPR, is Assistant Professor and Academic Fieldwork Coordinator, Rush University, Department of Occupational Therapy, Chicago, IL; rebecca_ozelie@rush.edu. At the time of the study, she was Student, Doctorate of Health Science Program, University of Indianapolis, Indianapolis, IN.

1. The first part of the text discusses the importance of maintaining accurate records of all transactions and activities related to the business. This is essential for ensuring the integrity and transparency of the financial statements.

1. The first of all things is to be sure that you are
clearly defined in your own mind. • The first of all things

- $\frac{1}{2} \int_{-\infty}^{\infty} \delta(x) dx = 1$ • $\int_{-\infty}^{\infty} \delta(x) f(x) dx = f(0)$
- $\int_{-\infty}^{\infty} \delta(x) f(x) dx = f(0)$ • $\int_{-\infty}^{\infty} \delta(x) f(x) dx = f(0)$
- $\int_{-\infty}^{\infty} \delta(x) f(x) dx = f(0)$ • $\int_{-\infty}^{\infty} \delta(x) f(x) dx = f(0)$
